

Pulse Care Systems

Dealer in: Supply of Hospital & laboratory Equipments

Touch Apogee 3500
Digital Color Doppler Ultrasound Imaging systems

Live 3D & 4D Imaging
Unlike complicate operation in traditional live 3D Ultrasound imaging, the apogee 3500 Touch adopts simple and quick operation method. Just with a few simple steps, live 3D Ultrasound images can be easily obtained.

The Apogee 3500 is available with many high-density, super broadband and multi-frequency probes such as:-

- Convex
- Micro-Convex
- Linear Vaginal
- Rectal and phased array probes

Which are widely applied for different clinical diagnoses including:-

- Abdomen (liver, Kidney, gall-bladder, pancreas)
- Gynecology (uterus, Ovary)
- Obstetrics (early pregnancy, basic OB, Complete OB, multi Gestation, Fetal echo)
- Cardiology (adult and pediatric cardiology)
- Small parts (thyroid, galactophore, testicles, neonate, peripheral vascular and prostate)

Handheld Pulse Oximeter

Digital technology

- Alarm with freely set limit
- Portable
- Seat type charge
- power safe function
- Built in memory Card for
- LED screen (visibility)

Digital Blood Pressure

- it simply and automatically displays the average of the last 3 readings.
- Backlit large easy-to-read LCD display.
- Fully automatic, reliable and comfortable measuring system.
- Measures systolic pressure, diastolic pressure and pulse rate.
- Silent pump.
- 60 readings memory including time and date.
- Irregular heartbeat indicator (IHB).
- Equipped with a standard adult cuff (22-30 cm).
- Sturdy case for travelling and transport.

Digital EGG machines 12-channel

- Large LCD display, wave form and data
- High resolution thermal printing array system frequency response 0.05 Hz to 150Hz(IEC)
- 12 standard lead, automatic lead change
- CMRR>80db-100db(with)
- Recording paper: 50mm, 20m high speed roll
- Input circuit-floating; protection against defibrillator affect.<50mA
- Rechargeable battery supporting more than 50 patients examinations
- Dimensions: 310mm x 230mm x 70 mm, weight 2.75kg
- Standard Accessories
- Patent cable, thermal printing paper, limb electrodes, chest electrodes power supply cord, grounding wire

Diathermy GIMA MB 200w

| MODE | MAXIMUM POWER | LOAD |
|------------|---------------|-----------|
| Pure cut | 300w | 300 audio |
| Blend 1 | 250w | 300 audio |
| Point coag | 120w | 300 audio |
| Bipolar | 50w | 100 audio |

Anaesthesia Machine Aeon 7200A

- High speed digital servo-controlled, volume constant system
- Monitor manifold parameters, suitable for adult & paediatric
- Compliance and leakage compensation system
- TFT screen display
- Self testing, troubleshooting and warning system
- High quality vaporizers: Low, temperature and pressure compensation
- Low resistance, compact absorber system
- Special designed bellows joint for easy installation
- Precision processing
- High reliability and durability

Fully Automatic Autoclave 50L & 70L

- European class B standard with 3-times per vacuum preceding vacuum drying
- It sterilizes and sanitizes miscellaneous packed or unpacked medical instruments, wetter solid or A-type hollow, wetter with multi-apertures or inset paper
- It is installed with bowick & Dick which measures the penetration of water steam.
- Residual humidity is <0.2%> vacuum measurement reaches -0.70bar

Oxygen Delivery Accessories

- compatible with BOC cylinders
- Oxygen set incl.
- RTM flowmeter,
- Vacuum regulator 0-1000mbar
- humidifier bottle
- wall outlet socket
- Oxygen mask with rebreathing bag
- Oxygen mask with tubing
- Oxygen BS Mk4 probe

5 Reflectors Ceiling Mounted

Mobile Theatre Light

12 Reflectors Ceiling Mounted

Suction Machine

Body material: mild steel, powder coated
Jar Material: polycarbonate (autoclavable)
Vacuum pressure: -700 +/- 10mm Hg
Suction capacity: 40 litres/minute
Type of pump: 40litres/minute
Power: 180 watts
RPM: 1440
Operating: 50 dBA +/- 3
Caster size: 220V AC
Weight (approx) 28kg
Stainless steel utility tray of approx size (11 x 7 x 2) inches

60 litres/min

Suction Machine

- Spare bottle for sam 14 each of 2 litres price
- Features
- Fully adjustable vacuum range
- 2 collection vessels incorporating a float valve system, providing automatic cut-off to avoid overflow
- Quiet operation with current standard
- Oil free diaphragm vacuum pump requiring minimal maintenance and eliminating cross contamination
- Totally enclosed AC induction motor with auto reset thermal overload and bearings

Infant radiant warmer

- Microprocessor based servo controlled temperature system.
- The microprocessor-controlled unit allows for three settings: pre-warm, manual or automatic.
- Alarm functions for safety includes: Power failure, temperature deviation, Temperature sensor failure, over temperature.
- APGAR timer to record therapy time
- Convenient X-ray cassette under infant bed
- Heater head can be adjusted + 90° horizontally
- Tilt angle of infant bed is adjustable
- Halogen Observe light angle is adjustable
- Transparent protector folded
- Alarms are audible and visual
- A second thermal cut-out function for more safety
- Skin temperature sensor failure protect function avoid over temperature
- Temperature deviation can be amended in front panel directly
- Low pressure aspirator, oxygen supply system and LED phototherapy unit
- Electric height adjusted suit for operation

Infant Incubator

- Servo-controlled air
- Temperature by microcomputer
- Quiet operation
- Touch operating panel
- LED digital display
- Front door of hoods opens upwards
- Window
- Set temperature display separately
- Five alarm Functions with one phototherapy unit
- Timer record tube

Patient Monitors

- 10.4" High Resolution Color TFT LCD
- 1.8 Channel Waveform Display
- 7 Leads ECG Waveform Display, ST Segment Analysis
- Defibrillation and ESU Protection
- OxCRG diagram
- Venous Punch
- Applicable for adult, pediatric, and neonatal patients
- Standard Configuration: ECG, NIBP, RESP, TEMP, SpO2
- Options: Thermal Recorder, CO2, IBP, Central Monitoring System

Dental Chair Standard Features:

- Electrical dental chair 1 set
- Dental stool 1 set
- Dental operation light 1 set
- 3-way syringe (hot & cold water) 2 sets
- High suction 1 set
- Saliva ejector 1 set
- Automatic Cup Filler 1 set
- Swivel Glass Cuspidor 1 set
- Clean Water System 1 set
- Option:**
- Ultrasonic Scaler
- LED Curing Light
- High Speed Handpieces (NSK or Chinese Made)
- Low Speed Handpieces (NSK or Chinese Made)
- Air compressor

Oxygen Splitters

Oxygen Concentrator - VISION AIRE

Make: Air Sep Medical Corporation -(USA)
Oxygen Concentration: 1-5 Litres per min @ 90% + 5.5 / -3 %
Weight: 13Kg
Sound Level: 40 dBA
Alarms: Power Failure, High and Low Pressure, temperature, Low Purity
Relative Humidity: Up to 95% (non-Condensing)
